

South Shore Children's Center "Someone Special & Me" Classes

All classes are for children ages 1year to 3year olds. Session will be from October 6th-December12th Cost \$140.00 per session

Tuesdays		Thursdays	
9am-10am	Building,Blocks, & Things that Go!	9am-10am	Amazing Artists
	This class is designed to be a fun exploration into the child's imagination, using creative play and toys to spark interst and hands on learning.		Children will explore a multitude of art mediums and techniques as we teach "the process not the product" concept to support individual creativity and exploration. Painting,sculpting,cutting,gluing collaging and so much more!
10:30am-11:30am	Read to me please!	10:30am-11:30am	Music and Motion
	Each week will explore a differnt literary theme that will introduce early literacy skills. We will use big books, flannel board storytelling, and drama to make the books come alive! We will connect the story with a take home craft.		Children will sing, dance and play to their favorite children's music, sing alongs, and motion games. We will incorporate parachute play and gross motor activities to get our musicians moving to the beat of their own drum!
12:00am-1:00pm	Creative Chefs	12:00pm-1:00pm	Read to me please!
	In this cooking class we will explore a variety of kid friendly receipes to mix, cut, create and enjoy ! Each child will turn these receipes into an awesome cookbook to take home at the end of the session!		Each week we will explore a different literary theme that will introduce early literacy skills. We will use big books, flannel board storytelling, and drama to make the books come alive! We will connect the story with a take home craft.
1:30pm-2:30pm	Amazing Artists	1:30pm-2:30pm	Super Scientists
	Children will explore a multitude of art mediums and techniques as we teach "the process not the product" concept to support individual creativity and exploration. Painting, sculpting, cutting, gluing, collaging and so much more!		Children will participate in "hands-on" science experiments designed for the early learner. Concepts such as weather, water, magnets,matter, and the natural world around us.
